

HegartyMaths and GDPR

HegartyMaths takes the privacy of all our students and teachers very seriously and as such we wanted to give you an update on our preparation for the General Data Protection Regulation (GDPR).

Below is our statement detailing what steps we are taking to meet the requirements of GDPR in time for the 25th May 2018.

GDPR Compliance Project

We are undertaking an organisation wide GDPR compliance project which includes:

- Engaging a specialist Data Protection Consultancy to aid in steering this project.
- Documenting our processing activities and the legal basis of processing personal data and special category personal data throughout HegartyMaths.
- Reviewing and updating all policies and procedures relating to the use of personal data.
- Reviewing and redrafting all contracts with 3rd parties who we share personal data with.
- Reviewing and redrafting all privacy notices to ensure transparency with all students and teachers enrolled on our software

As we move towards the 25th May 2018 we will keep all users up to date in relation to our progress towards compliance.

Any questions

If you have got any questions about the above or GDPR more generally please email us at: privacy@hegartymaths.com
